PROJECT PROFILE 2025 · BOOK DIRECTORY

Contents

Archival Print Edition · Curated 2025 Anthology of 100 Projects (FY 2021-22 to 2024-25).

PART I · CORPORATE PROFILE & METHODOLOGY

Overview I — ISO 9001:2015, Recognition & Governance p. 3
Overview II — 8-Step Process, Clients & Portfolio Matrix p. 4
Overview III — Branch Offices & Bangladesh Coverage Map p. 5
Overview IV — Full Team Directory & All Branch Phones p. 6

PART II · SMART IOT, TELEMETRY & PORTFOLIO

Smart IoT I — FarmHub IOT60005 (v1.3.0) Controller p. 7
Smart IoT II — SensPanel Cloud Telemetry & Rule Engine p. 8
Portfolio Archive — 6 Service Overviews & 100 Projects p. 9
Closing Directory — Official Channels, Branches & ISO Links p. 115

PART III · SERVICE OVERVIEW DIVIDERS & 100 CURATED PROJECTS ACROSS ALL 28 SUBCATEGORIES

Service 01: Drip Irrigation Systems Overview p. 9

1.1.1	EGP Tender Project	#01-#06	p. 10
1.1.2	Research Demo Project	#07-#08	p. 16
1.1.3	NGO Funded Project	#09-#16	p. 18
1.1.4	Fruit Orchard Project	#17-#29	p. 26
1.1.5	Vegetables Orchard Project	#30-#34	p. 39
1.1.6	Rooftop Garden Project	#35-#43	p. 44
1.1.7	Vertical Garden Project	#44-#49	p. 53
1.1.8	Agro Beautification Project	#50-#57	p. 59

Service 02: Sprinkler Irrigation Systems Overview p. 67

1.2.1	EGP Tender Project	#58-#59	p. 68
1.2.2	Fruit Orchard Project	#60-#62	p. 70
1.2.3	Vegetables Orchard Project	#63	p. 73
1.2.4	Livestock Grass Field Project	#64-#65	p. 74
1.2.5	Nursery Garden Project	#66	p. 76
1.2.6	Above Shed / Residence Project	#67	p. 77

Service 03: High-Pressure Fogging & Mist Cooling Overview p. 78

1.3.1	NGO Funded Project	#68-#70	p. 79
1.3.2	Inside Dairy / Bull / Poultry Shed	#71-#80	p. 82
1.3.3	Inside Mushroom Shed	#81-#82	p. 92
1.3.4	Inside Nursery / Orchid / Cactus Shed	#83-#84	p. 94
1.3.5	Inside Factory / Workshop	#85-#86	p. 96
1.3.6	Hydroponic Grass Project	#87	p. 98
1.3.7	Fruit Orchard Project	#88	p. 99

Service 04: Hydroponics & Soilless Cultivation Overview p. 100

2.2	NFT Vertical Hydroponics	#89-#90	p. 101

Service 05: Filtration & Water Treatment Plants Overview p. 103

3.1	Irrigation Filtration Project	#91	p. 104
3.2	Iron Filtration Project	#92-#93	p. 105

Service 06: IoT, Solar & Environment Control Overview p. 107

4.2	IoT Programmable Automation Project	#94-#95	p. 108
4.3	IoT Sensor Based Automation Project	#96-#97	p. 110

Division 5: Solar System p. 112

5.1	Off Grid Solar System	#98-#99	p. 112

Division 6: Environment Control p. 114

6.2	Polyshed Setup	#100	p. 114

Archive Summary: 100 Curated Engineering Projects · 6 Core Service Divisions · 28 Specialized Subcategories · 43 Districts Nationwide

PART I · CORPORATE OVERVIEW (1 OF 4) · ISO 9001:2015 CERTIFIED

Pioneering Precision Water & Smart Agritech Engineering in Bangladesh

Established in 2020 and incorporated on 8 September 2021, **Drip Irrigation BD Ltd. (DIBL)** engineers, manufactures, and commissions precision drip, sprinkler, high-pressure fogging, hydroponics, filtration, off-grid solar pumping, and **FarmHub / SensPanel IoT automation** across all 8 divisions of Bangladesh from its updated Shyamoli/Mohammadpur headquarters and IoT lab.

Quality Certification & National Institutional Endorsements

QUALITY MANAGEMENT

ISO 9001:2015 Certified

Quality Management System (**Certificate No. AMER801444**), issued 19 September 2026.

DUTCH EMBASSY INCUBATION

Orange Corner Graduate

Cohort 1 Innovation Winner (EUR 5,000 Grant + EUR 32,330 Track-2 Acceleration) via **Orange Corners Bangladesh**.

ICT DIVISION · BIG WINNER

iDEA Portfolio Startup

Bangabandhu Innovation Grant (BIG) Winner (BDT 10,00,000 Grant) & **iDEA Project Portfolio** graduate.

1,700+
Total Field Installations
1,000+ Drip, 300+ Sprinkler, 300+ Fogging & 400+ Filtration Units

15,000+
Farmers & Clients Served
3,000+ acres (~1,600 ha) spanning all 8/8 divisions nationwide

Up to 70%
Water Savings Achieved
Up to 60% fertilizer efficiency via calibrated venturi fertigation

36+ / 35
Models & Local Molds
36+ sprinkler models & 35 domestic injection molds (3.5M+ emitters)

Our Mission

To accelerate agricultural modernization across Bangladesh by delivering ISO 9001:2015 certified, locally engineered micro-irrigation, environmental fogging, clean filtration, and smart sensor automation systems that conserve water, labor, and fertilizer while lifting farm profitability.

Our Vision & 4IR Smart Ecosystem

To build a climate-resilient, data-driven agri-engineering ecosystem combining precision polymer manufacturing with **FarmHub IOT60005** edge controllers, **SensPanel** cloud telemetry, and 24/7 AI technical support (**Bindu**) across every farming district.

Corporate Headquarters: 2C/81, Parijat Apartment (HQ Building), North Adabor, Shyamoli / Mohammadpur, Dhaka-1207

IoT & R&D Lab: Parijat Apartment, 81 North Adabor, Shyamoli, Dhaka-1207 · Tel: +880 1919-751843

Direct Helpline: +880 1324-445400 · **Bindu 24/7 AI Assistant:** +880 1324-445401

Portals: www.dripirrigation.com.bd · **my.senspanel.com** · info@dripirrigationbd.com

PART I · CORPORATE OVERVIEW (2 OF 4)

Engineering Process, Institutional Partners & 2025 Portfolio Curation

01 Site & Water Survey
Soil percolation, source capacity, iron/TDS checks & terrain gradients.

02 AutoCAD Hydraulic Design
Lateral spacing, emitter discharge, head-loss & zone valving.

03 BoQ & Technical Proposal
Transparent Bill of Quantities, pump curve matching & ROI.

04 Component Production
Injection-molded fittings, PC drippers, UV pipes & tested filters.

05 Certified Field Install
Trenching, riser fabrication, pressure testing & commissioning.

06 FarmHub IoT Pairing
4-zone AC wiring, RJ45 CAT6 sensors, RTC timers & SensPanel.

07 Agronomist Handover
Hands-on fertigation schedules, backwash training & manuals.

08 Nationwide AMC & Support
Rapid service & spares via 10 regional offices & Bindu 24/7 AI.

Trusted By Research Agencies, NGOs & Corporate Estates

Enlisted contractor & supplier to **BADC, DAE, BARI, BRRI, BINA, BSRI, SAU**, **CARE, WorldFish, iDE, BRAC, Swisscontact**, and **PRAN, ACI, Renata, Partex & Aarong Dairy**.

Awards, Grants & Industry Recognition

- **ISO 9001:2015 Certified:** Cert No. AMER801444 (19 Sep 2026).
- **BIG 2023 & Orange Corners:** National BDT 10L & Dutch EUR 37.3K grants/acceleration.
- **Stellar Women 2024 & BAEN Green Award:** Woman-led Smart AgriTech honor.

2025 Edition Curation (Best 100 of 127 Verified 2025 Projects): Selected from 127 field installations in the 2025 archive prioritizing latest FY 2023-24 & 2024-25 works while covering all **6 divisions** and **28 subcategories** across **43 districts**.

Div.	Engineering Discipline	Folios	Count	Start
Div 1	Micro Irrigation	#01 - #88	**88**	p. 9
Div 2	Hydroponics	#89 - #90	**2**	p. 100
Div 3	Filtration	#91 - #93	**3**	p. 103
Div 4	IoT & Automation	#94 - #97	**4**	p. 107
Div 5	Solar System	#98 - #99	**2**	p. 107
Div 6	Environment Control	#100 - #100	**1**	p. 107
2025 Portfolio Total (All 28 Subcategories)		**#01 - #100**	**100**	**p. 9 - 114**

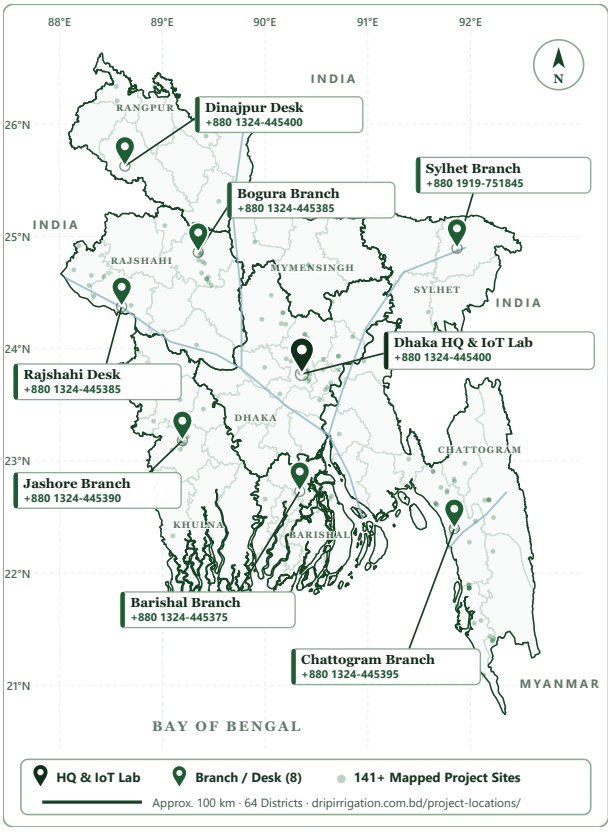

Fiscal Year Mix: FY 2024-25 **1** | FY 2023-24 **60** | FY 2022-23 **34** | FY 2021-22 **5**

PART II · MADE IN BANGLADESH · SKU: IOT60005 · VERSION 1.3.0

FarmHub IoT Controller — 4-Zone Smart Automation & Sensor Hub

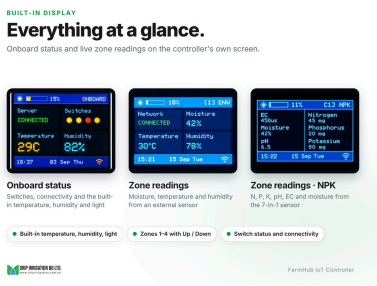

Industrial 4-channel 220V AC Smart IoT Irrigation & Farm Automation Controller featuring a vivid zonal color LCD display, manual override & Scroll/Back/OK menu keys, 4× RJ45 CAT6 auto-detect sensor ports (up to 1,000 m), built-in light/temp/humidity sensors, and 12 offline schedule timers.

FarmHub Front Panel: Industrial metal enclosure, color LCD, 4 manual buttons + LEDs & 220V terminal strip.

Hardware Anatomy: Built-in Light, Temp & RH sensors, Scroll/Back/OK menu navigation & 4× RJ45 S1-S4 ports.

Color Zonal LCD UI: Live onboard climate, network status & 7-in-1 Soil NPK/pH/EC/Moisture screen views.

Versatile 220V Switching: Powers irrigation pumps, solenoid valves, foggers, exhaust fans & aerators.

Subsystem (v1.3.0)	Live Website Technical Specification (IOT60005)	Farm Value
Output Channels	4 × 220V AC relays (**30A general load / 1 HP direct motor**; magnetic contactor supported for larger pumps)	Simultaneous pump, valve, fogger, fan & light control
Sensor Ports & Onboard	4 × RJ45 CAT6 ports (**S1-S4**) auto-detect up to **1,000 m** + onboard Light, Temperature & Humidity sensors	Zero manual calibration across polyhouses & orchards
Display & Local Control	Zonal color LCD, 4 output manual override buttons + indicator LEDs, Menu keys (Scroll, Back, OK)	Full field control & live telemetry even without internet
Offline Schedules	**12 weekly RTC schedule timers** stored inside controller memory (100% offline execution during Wi-Fi outage)	Guaranteed scheduled irrigation & misting persistence
Cloud & Telemetry	**my.senspanel.com** live WebApp + Android App with **6-month history archive & CSV export**	Audit-ready farm telemetry for BARI, NGOs & agribusiness

11 PRIMARY & ALTERNATIVE APPLICATIONS:

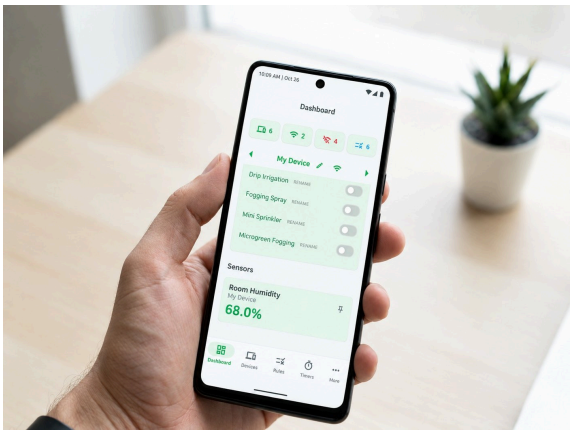

1. Greenhouse Climate & Drip
2. Open-Field Drip Pumps
3. Mushroom Fogger & RH
4. Multi-Zone Orchards
5. Livestock & Poultry Cooling
6. Hydroponics & Nurseries
7. Fisheries Pond Aerators
8. Dragon Fruit Night-Lighting
9. Cold Storage & Chiller Alerts
10. Rooftop & Landscape Timers
11. Home / 220V 30A AC Loads

Launch Offer Price: BDT 15,000 (50% OFF Regular BDT 30,000) | Live Product Page: **dripirrigation.com.bd/product/farmhub-iot-controller/**

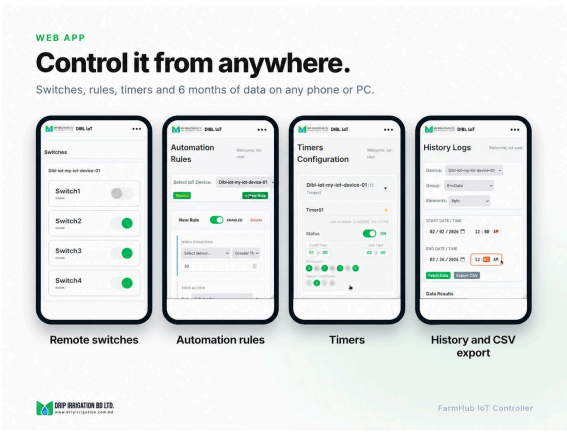

PART II · CLOUD TELEMETRY, SCHEDULE TIMERS & IF/THEN RULE ENGINE

SensPanel (senspanel.com / my.senspanel.com) — Unified Web & Mobile Farm Portal

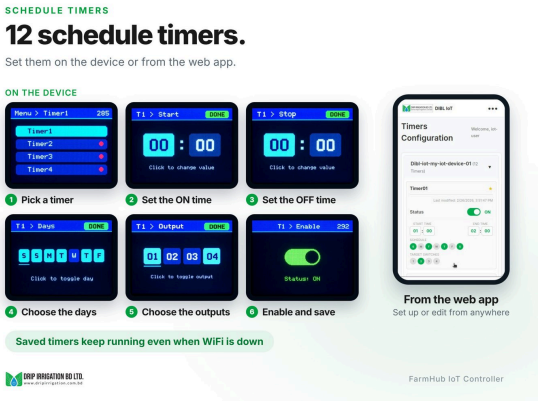

Connected natively to every FarmHub IOT60005 unit, **SensPanel** delivers real-time soil & microclimate cards, 1-tap remote relay switching, 12 synced weekly schedule timers, conditional *If / Then / Only* sensor automation rules, and 6-month downloadable CSV datasets from any phone or PC.

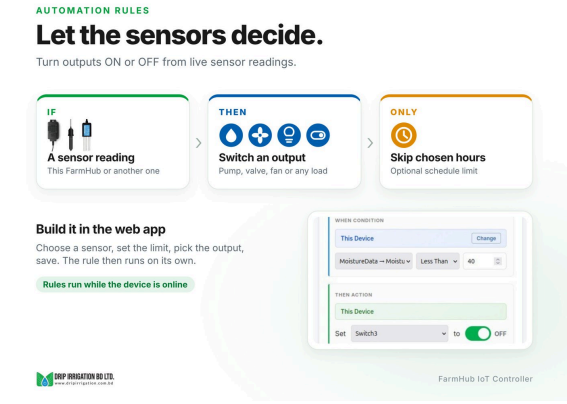

Mobile Dashboard: Instant device online/offline counters, switch toggles & live room/soil sensor cards.

Full WebApp Control: Remote switches, automation rules, schedule timers & 6-month CSV history export.

12 Schedule Timers: Configure directly via device color UI or remotely from SensPanel; persists offline via RTC.

If / Then / Only Rules: Automated irrigation & fogger thresholds based on live Soil Moisture, Temp, RH or NPK.

Closed-Loop Agronomy

Acts automatically on Moisture, Temp, RH, Light, EC, pH & NPK readings across orchards, dairy barns & greenhouses.

Edge + Cloud Resilience

Saves up to 12 weekly timers inside FarmHub RTC hardware so irrigation cycles continue uninterrupted without Wi-Fi.

Research-Grade CSV Archive

Stores 6 months of timestamped sensor telemetry exportable as CSV for BARI/BRRI research and commercial audits.

SERVICE OVERVIEW 01 OF 06 · DIVISION 1.1

PORTFOLIO FOLIOS #01 - #57 (57 PROJECTS)

Drip Irrigation Systems

Precision Root-Zone Water & Nutrient Delivery Across Commercial Farms, Hills & Urban Estates

Engineered to deliver low-flow, metered water and soluble fertilizers directly to the root zone, DIBL drip networks cut field water losses by up to 70% while uniformizing fruit size, Brix quality, and seasonal yield across flatlands, Chittagong Hill Tracts slopes, saline belts, and rooftop planters.

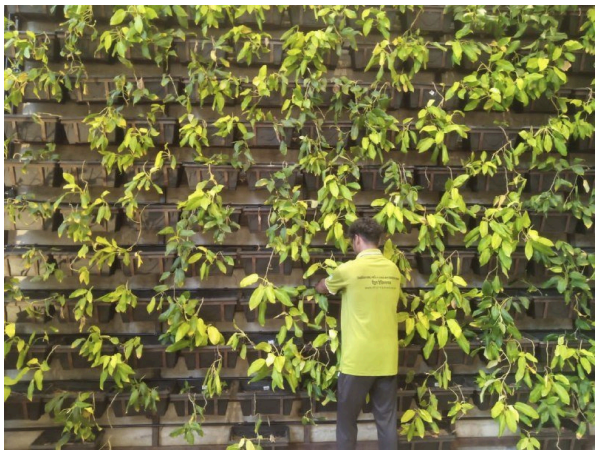

Adjustable & Pressure-Compensated Emitter Head

Precision Orchard Row Lateral Calibration

Inline Drip Laterals on Young Vegetable Beds

Vertical Bio-Wall Micro-Drip Commissioning

Standard Engineering Parameters

Operating Pressure	0.8 - 2.0 bar (12 - 29 PSI) with inline PRV & pressure gauges
Emitter Options	2 - 8 LPH Pressure-Compensated (PC), Online Turbulent & Flat Inline
Lateral Piping	12 mm & 16 mm UV-stabilized virgin LLDPE; HDPE / uPVC sub-mains
Fertigation	Venturi injectors (3/4 in - 2 in) & bypass dosing tanks for soluble NPK

Subcategories & Sectors Covered Here (57 Projects)

- 1.1.1 EGP Tender Project
- 1.1.2 Research Demo Project
- 1.1.3 NGO Funded Project
- 1.1.4 Fruit Orchard Project
- 1.1.5 Vegetables Orchard Project
- 1.1.6 Rooftop Garden Project
- 1.1.7 Vertical Garden Project
- 1.1.8 Agro Beautification Project

PROJECT NO. 01 OF 100 · CODE: —

1.1.1 EGP Tender Project · FY 2023-24

Installation of 02 Nos. Drip Irrigation System at any upazila under Bogura Region

Funded By: Program on Agricultural and Rural Transformation for Nutrition, Entrepreneurship and Resilience (PARTNER)

Implemented By: Executive Engineer, BADC, Bogura Region

Installed By: Drip Irrigation BD Ltd.

Site Location: Kahalu, Bogura

Overall scenario of the project

Water discharge by dripper nozzle

Field Inspection by Executive Engineer Bogura

Water discharge by dripper nozzle

PROJECT VALUE	SITE AREA / SCALE	FISCAL YEAR	TIMELINE	CROPS
360000	100 Decimal	2023-24	15/02/2024 to 19/3/2024	Dragon

Site Challenge: Source of water, Labour, Large area

Engineering Achievement: Automatic Timer based Drip Irrigation with Jet Pump. & Header Tank

Major Equipment Deployed: Programmable timer, Filter, Venturi, Pressure gauge, Air release valve, Flash valve, Adjustable dripper with In-line & online drip tube | **Site Supervision:** Agriculturist Md. Shamsuzzaman sumon, Assistant Director, Bogura Branch.

PROJECT NO. 02 OF 100 · CODE: —

1.1.1 EGP Tender Project · FY 2023-24

Installation of 02 Nos. Drip Irrigation System at any upazila under Bogura Region

Funded By: Program on Agricultural and Rural Transformation for Nutrition, Entrepreneurship and Resilience (PARTNER)

Implemented By: Executive Engineer (MI), BADC, Bogura region

Installed By: Drip Irrigation BD Ltd.

Site Location: Shajanpur, Bogura

Project setup by DIBL Team members

SERVICE OVERVIEW 02 OF 06 · DIVISION 1.2

PORTFOLIO FOLIOS #58 - #67 (10 PROJECTS)

Sprinkler Irrigation Systems

Uniform Overhead Artificial Rainfall, Lawn Pop-Ups & Industrial Evaporative Shed Cooling

Designed for crops, pastures, nurseries, tea gardens, and turf landscapes requiring full-canopy wetting or microclimate cooling. DIBL configures brass impact heads, micro-rotors, and pop-up turf nozzles using hydraulic head-loss curves matched to site pump curves.

Heavy-Duty Brass Impact Sprinkler Assembly

Micro-Sprinkler Broadcast Over Broadleaf Crops

Retractable Pop-Up Lawn & Estate Landscape Spray

High-Clearance Riser Sprinkler Over Fodder Fields

Standard Engineering Parameters

Throw & Coverage	2.5 m - 24 m throw radius across 90 to 360 degree arc geometry
Nozzle Family	Brass Impact, Butterfly & Rotor Micro-Sprinklers, Retractable Pop-Ups
Operating Pressure	1.5 - 4.0 bar with swing-joint risers and drain/check valves
Thermal Duty	Overhead shed-roof sprinkler arrays lowering indoor heat by 4 - 7 deg C

SERVICE OVERVIEW 03 OF 06 · DIVISION 1.3

PORTFOLIO FOLIOS #68 - #88 (21 PROJECTS)

High-Pressure Fogging & Mist Cooling

Micronized Evaporative Cooling & Precision Relative Humidity Control for Livestock, Crops & Industry

By atomizing filtered water into 5 to 20 micron droplets through anti-drip brass and stainless-steel orifices, DIBL fogging lines achieve rapid flash evaporation without floor wetting, preventing heat stress in dairy/poultry barns and sustaining ideal RH inside mushroom, orchid, and tea-processing facilities.

4-Way Anti-Drip Foggers Above Seedling Propagation Beds

High-Pressure Evaporative Mist Array Inside Poultry House

Controlled-Environment Mushroom & AC Cooling Chamber

Supermarket Fresh Produce Shelf Hydration & Mist Display

Standard Engineering Parameters

Pump & Line Pressure	40 - 70 bar (600 - 1,000 PSI) forged-brass plunger pumps; nylon / SS304 tubing
Droplet & Orifice	0.15 mm - 0.30 mm anti-drip nozzles (0.04 - 0.10 LPM per head)
Cooling Potential	5 - 10 deg C dry-bulb reduction with rapid humidity equilibration
Control Modes	Cyclic short-pulse digital timers or automated Temp/RH sensor feedback

PORTFOLIO FOLIOS #89 - #90 (2 PROJECTS)

Hydroponics & Soilless Cultivation

Closed-Loop NFT Channels, Dutch Bucket Vine Modules & Recirculating Nutrient Management

Enabling high-density crop production independent of arable soil, DIBL fabricates food-grade uPVC A-frame Nutrient Film Technique (NFT) racks, Dutch bucket substrate stations, and recirculating EC/pH dosing sumps tailored for urban rooftops, research institutes, and commercial greenhouses.

DIBL Engineering Team Commissioning A-Frame NFT Rack

Dutch Bucket Vine Crop Module with Arrow Drip Feed

Substrate Grow-Bag Arrow Dripper Fertigation Line

Recirculating Fish-Plant Media Bed Aquaponics Unit

Standard Engineering Parameters

Architecture	Food-grade UV uPVC NFT channels (75x50 mm) & Bato Dutch buckets
Nutrient Loop	Submersible circulation pumps with digital EC (1.2-2.8 mS/cm) & pH (5.5-6.5) logs
Growing Media	Expanded clay pebbles (LECA), buffered cocopeat, or inert perlite
Water Footprint	Up to 90% water conservation via closed-loop sump recirculation

PORTFOLIO FOLIOS #91 - #93 (3 PROJECTS)

Filtration & Water Treatment Plants

Protecting Precision Emitters & Upgrading Ground/Surface Water via Multi-Stage Filtration

Bangladesh groundwater frequently carries elevated iron, calcium hardness, sand, and organic algae that rapidly clog fine drippers and fogging orifices. DIBL engineers multi-barrier hydrocyclone, screen, stacked-disc, and pressurized FRP catalytic media plants matched to raw water chemistry.

Corrosion-Proof Screen / Stacked Disc Micro-Filter Unit

Compact Inline Filter Assembly with Union & Ball Valve

Multi-Vessel FRP Pressure Media Plant (Iron & Turbidity)

Turnkey Farm Intake Filtration & Manifold Skid Installation

Standard Engineering Parameters

Primary Straining	120-mesh (130 micron) stainless screen & grooved PP stacked disc filters
Media Vessels	FRP pressure vessels (16x65 in - 36x72 in) with multi-port backwash valves
Contaminant Target	Sand/silt turbidity, dissolved Fe (up to >5 mg/L), Mn, algae & hardness
System Sizing	2 m3/h farm manifolds to 25+ m3/h institutional water treatment skids

Implemented By: BRAC Bogura
Installed By: Drip Irrigation BD Ltd.
Site Location: BRAC Bottola, Mirzapur, Bogura

Overall scenario of the project

Project setup by DIBL Team

Field Inspection by Executive Engineer Rangamati

Water discharge by dripper nozzle

PROJECT VALUE	SITE AREA / SCALE	FISCAL YEAR	TIMELINE	FARM
355185 BDT	4.8 decimal	2023-24	08 to 15 June, 2024	Cow

Site Challenge: Source of water, Labor cost, Plumbing

Engineering Achievement: Installation of Fogging Cooling system by pump pressure with were solved the problem

Major Equipment Deployed: Pump, Filter, Sensor, DB Box, Misting Fogger, Timer, Solenoid Valve | **Site Supervision:** Agriculturist Md Shamsuzzaman sumon, Assistant Director, Bogura Branch

PROJECT NO. 97 OF 100 · CODE: —

4.3 IoT Sensor Based Automation Project · FY 2024-25

Automatic Fogging Cooling System on Cowshed

Funded By: BRAC
Implemented By: BRAC Mymensingh
Installed By: Drip Irrigation BD Ltd.
Site Location: Shombhuganj, Mymensingh

Overall scenario of the project

Project setup by DIBL Team

Field Inspection by Executive Engineer Rangamati

Water discharge by dripper nozzle

PROJECT VALUE	SITE AREA / SCALE	FISCAL YEAR	TIMELINE	FARM
170300BDT	3 decimal	2024-25	11 to 25 July, 2024	Cow

Site Challenge: Source of water, Labor cost, Plumbing

Engineering Achievement: Installation of Fogging Cooling system by pump pressure with were solved the problem

Major Equipment Deployed: Pump, Filter, Sensor, DB Box, Misting Fogger, Timer, Solenoid Valve | **Site Supervision:** Agriculturist Md Shamsuzzaman sumon, Assistant Director, Bogura Branch

PROJECT NO. 98 OF 100 · CODE: —

5.1 Off Grid Solar System · FY 2023-24

Installation of 06 Nos. Drip Irrigation System by Solar power at any upazila under Rangamati Region.

Funded By: BADC

Implemented By: Executive Engineer (MI), BADC, Rangamati Region

Installed By: Contractor: Sherpa Power Engineering Ltd.; Implementing Partner: Drip Irrigation BD Ltd.

Site Location: Rajnogor, Rupnagar, Gulshakhali, Longodu, Rangamati

Mainline Irrigation Setup from Tank

Overall Scenario of Project Area

Water Discharge from the Adjustable Dripper

Scenario of the main line position

PROJECT VALUE	SITE AREA / SCALE	FISCAL YEAR	TIMELINE	CROPS
45,00,000 BDT (3%)	1 Acre	2023-24	05-08 June 2024	Mango

Site Challenge: Source of water, Labour, Large area, Hill Slope

Engineering Achievement: Automatic Timer based Drip Irrigation with Solar Pump & Header Tank

Major Equipment Deployed: DIBL Programmable timer, Filter, Venturi, Pressure gauge, Air release valve, Flash valve, Adjustable dripper with feeder line & online drip tube | **Site Supervision:** Mobinul Islam, Assistant Engineer, Chattogram Branch

PROJECT NO. 99 OF 100 · CODE: —

5.1 Off Grid Solar System · FY 2022-23

Solar Powered Drip & Sprinkler Irrigation in Hilly Fruit Orchard

Funded By: Nasir Agro Zone
Implemented By: Nasir Agro Zone
Installed By: Drip Irrigation BD Ltd.
Site Location: Manikchari, Khagrachari

Overall scenario of the project

Overall scenario of the project

Water discharge by sprinkler nozzle

Water discharge by sprinkler nozzle

PROJECT VALUE	SITE AREA / SCALE	FISCAL YEAR	TIMELINE	CROPS
850000 BDT	25 acres	2022-23	31 October 2022 to 27 December 2022	Mango, Litchi, Guava, Dragon fruit and Rambutan Fruit Orchard in Hill

Site Challenge: Irrigation maintenance, Labour, Large area, Schedule maintenance

Engineering Achievement: Drip and Sprinkler Irrigation for 25 acres areas were solved the problem

Major Equipment Deployed: Water pump, filter, uPVC pipe, HDPE coil pipe, thread pipe, adjustable dripper, drip tube, connector, big sprinkler | **Site Supervision:** Agriculturist Md. Riaj Uddin, Regional Manager, Chattogram Branch

PROJECT NO. 100 OF 100 · CODE: —

6.2 Polyshed Setup · FY 2023-24

Installation of Poly shed with Shade net

Funded By: BADC
Implemented By: BADC
Installed By: Drip Irrigation BD Ltd.
Site Location: BADC, Gabtoli, Dhaka
